SUMMARY

Full-stack developer with expertise in C#, Javascript, Python, and Java, experienced in frameworks like ASP.NET, React, Next.JS, and Nodejs. Proficient in cloud platforms and developed various successful projects. Holds a Master's degree in Computer Science with a strong research background in AI.

SKILLS

C# | **Javascript / Typescript** | **Python** | **Java** | **Frameworks** - ASP.NET Core, React.JS, Next.JS, Express.JS, Electron.JS, WPF, React Native | **Cloud** - AWS, GCP, Github CI/CD | **Databases** - MySQL, MSSQL, Firestore

WORK EXPERIENCE

Lead Developer - LRCAR Service (Contract)

Nov 2021 - Apr 2024

Led a team of developers and a designer, managing full-stack development with ASP.NET Core, React, React Native, Node.js, and Firestore.

- Directed a cross-functional team, ensuring collaboration and quality.
- Developed backend, web, and mobile applications.
- Managed project timelines and resource allocation.
- Provided post-deployment support for 2 years, ensuring system reliability.

Full Stack Developer - Fiverr (Freelancer)

Jul 2018 - Apr 2024

Developed Windows, web, and mobile applications, completing 300+ projects using modern frameworks. Managed a team of 1 designer and 1 developer.

- Completed over 300 diverse projects with high client satisfaction.
- Developed and maintained windows, web, and mobile applications.
- Managed a small team, ensuring effective collaboration and timely delivery.
- Utilized modern technologies like ASP.NET Core, React, and Next.js for full-stack development.

Full Stack Developer - NUST, Pakistan

Aug 2022 - Nov 2023

Developed user-friendly web applications to enhance access to Language Learning Models (LLMs) for private organization policies using ASP.NET Core, React.js, and MySQL.

- Led end-to-end development of web applications for LLMs.
- Designed dynamic interfaces with React.js.
- Managed database operations using MySQL.

EDUCATION

Master of Science in Computer Science

Apr 2023 - Onwards

Technical University Berlin, Germany

Master of Science in Computer Science

Oct 2021 - Aug 2023

National University of Science & Technology, Pakistan

- Specialization in Deep Learning
- Thesis on "Social Media Indicators for Cryptocurrency Price Prediction".

Bachelor of Science in Software Engineering

Sept 2017 - Oct 2021

Foundation University Islamabad, Pakistan

- Specialization in Software Development

PROJECTS

1. LR Car Web Dashboad & Mobile App

ASP.NET Core, React.Js, Node.Js, GCP

LR Car Service is just like Uber or Cream but for private customers. The key users are drivers, dispatchers, and admin. The dispatcher has to dispatch the passengers and drivers have to pick them up and drop them at a specific location. The web portal was developed using React.JS, ASP.NET Core, and NodeJS. The app is also available on the Google Play Store.

2. Evergo Packaging Web Dashboard

React.Js, Firestore, Serverless, GCP

Evergo Packaging provides custom eco-friendly packaging solutions through a user-friendly platform. Users can request quotes and place orders for various packaging types, while admins manage users, orders, and quotes. The project includes a comprehensive dashboard developed to ensure a seamless user experience and efficient management.

3. Truck Safety Team ERP Web Dashboard

ASP.NET Core, React.Js, MySQL, GCP

The TRUCK SAFETY TEAM Dashboard keeps trucking companies safe and efficient. This web platform brings driver, vehicle, trailer, and job posting management together. Track drivers, assign them to vehicles, and monitor performance. Plus, view vehicle details, schedules, and inspections. It simplifies tasks, improves safety, optimizes resources, and helps make data-driven decisions.

4. STUZANNE ERP Desktop Application

ASP.NET Core, React.Js, Electron.Js

STUZANNE is an enterprise-level job and customer management system designed to streamline and automate various operational workflows within an organization. It offers functionalities to handle customer management, job tracking, allocation of tasks, and user administration. The platform is built to enhance productivity, improve tracking accuracy, and provide a centralized system for managing multiple aspects of business operations.
